**FINANCIAL STATEMENTS AND INDEPENDENT**  
**AUDITORS' REPORT**  
**DECEMBER 31, 2025 AND 2024**

---

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

## INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of Taiwan IC Packaging Corporation

### ***Opinion***

We have audited the accompanying individual balance sheets of Taiwan IC Packaging Corporation (the "Company") as at December 31, 2025 and 2024, and the related individual statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the financial statements, including a summary of material accounting policies.

In our opinion, the accompanying individual financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

### ***Basis for opinion***

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the individual financial statements* section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Key audit matters***

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Company's 2025 individual financial statements. These matters were addressed in the context of our audit of the financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

### **Key audit matter- Assessment of allowance for inventory valuation losses**

#### Description

Refer to Note 4(9) for accounting policies on inventory valuation and Note 5(2) for uncertainty of accounting estimates and assumptions in relation to inventory valuation. As at December 31, 2025, the cost of inventories and allowances for inventory valuation losses amounted to NT\$262,901 thousand and NT\$80,060 thousand, respectively.

The Company is primarily engaged in semiconductor packaging. As the Company operates in an environment characterised by rapidly changing technology, the risk of incurring inventory valuation losses or having obsolete inventories is relatively high. The Company's inventories are stated at the lower of cost and net realisable value. The item by item approach is used in applying the lower of cost and net realisable value. As a result of the inventory amount being significant, and the estimated amount of net realisable value involves management's subjective judgement; therefore, we consider the assessment of allowance for inventory valuation losses as a key audit matter.

#### How our audit addressed the matter

We performed the following audit procedures on the above key audit matter:

1. Obtained an understanding of the Company's operations and industry. Assessed the reasonableness of the policies and procedures used to recognise allowance for inventory valuation losses and the consistency of estimation accounting methods.
2. Obtained an understanding on the warehouse management processes, reviewed the annual physical inventory count plan and participated in the annual inventory count in order to evaluate the effectiveness of procedures used by the management to identify and control obsolete inventories.

3. Tested the accuracy of statements prepared by the Company for calculating inventory valuation loss; selected sampled with individual part numbers and verified the movement record to check the accuracy of classification range of inventory ages; sampled individual part numbers to verify their net realisable value, and further assessed the reasonableness of allowance for inventory valuation losses.

### ***Responsibilities of management and those charged with governance for the financial statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the audit committee, are responsible for overseeing the Company's financial reporting process.

### ***Auditors' responsibilities for the audit of the individual financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

TAIWAN IC PACKAGING CORPORATION  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEARS ENDED DECEMBER 31, 2025 AND 2024

(Expressed in thousands of New Taiwan dollars, except as otherwise indicated)

1. History and Organisation

Taiwan IC Packaging Corporation (the “Company”) was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C) on July 14, 1998. The Company is primarily engaged in semiconductor packaging and testing. Since December 2005, the Company’s stocks have been officially listed on the Taipei Exchange.

2. The Date of Authorisation for Issuance of the Financial Statements and Procedures for Authorisation

These financial statements were authorised for issuance by the Board of Directors on March 3, 2026.

3. Application of New Standards, Amendments and Interpretations

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS<sup>®</sup>”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC and became effective from 2025 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 21, ‘Lack of exchangeability’	January 1, 2025

The above standards and interpretations have no significant impact to the Company’s financial condition and financial performance based on the Company’s assessment.

(2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2026 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Specific provisions of Amendments to IFRS 9 and IFRS 7, ‘Amendments to the classification and measurement of financial instruments’	January 1, 2026
Amendments to IFRS 9 and IFRS 7, ‘Contracts referencing nature-dependent electricity’	January 1, 2026
IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendments to IFRS 17, ‘Insurance contracts’	January 1, 2023
Amendment to IFRS 17, ‘Initial application of IFRS 17 and IFRS 9 – comparative information’	January 1, 2023
Annual Improvements to IFRS Accounting Standards—Volume 11	January 1, 2026

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 18, 'Presentation and disclosure in financial statements'	January 1, 2027(Note)
IFRS 19, 'Subsidiaries without public accountability: disclosures'	January 1, 2027
Amendments to IAS 21, 'Translation to a Hyperinflationary Presentation'	January 1, 2027

Note : The FSC has announced in a press release on September 25, 2025 that public companies will apply IFRS 18 starting from the fiscal year 2028. Additionally, entities can choose to adopt IFRS 18 earlier based on their requirements after the FSC endorses IFRS 18.

Except for the related impacts of the following standards and interpretations that are yet to be assessed, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment:

IFRS 18, 'Presentation and disclosure in financial statements'

IFRS 18, 'Presentation and disclosure in financial statements' replaces IAS 1. The standard introduces a defined structure of the statement of profit or loss, disclosure requirements related to management-defined performance measures, and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

4. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The financial statements of the Company have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis of preparation

A. Except for the defined benefit assets recognised based on the net amount of pension fund assets less present value of defined benefit obligation, the financial statements have been prepared under the historical cost convention.

- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

(3) Foreign currency translation

The financial statements are presented in New Taiwan dollars, which is the Company's functional currency.

Foreign currency transactions and balances

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- D. All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.

(4) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
- (a) Assets that are expected to be realised, or are intended to be sold or consumed in the normal operating cycle;
  - (b) Assets that are held primarily for the purpose of trading;
  - (c) Assets that are expected to be realised within twelve months after the reporting period;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities for at least twelve months after the reporting period.

B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:

- (a) Liabilities that are expected to be settled in the normal operating cycle;
- (b) Liabilities that are held primarily for the purpose of trading;
- (c) Liabilities that are due to be settled within twelve months after the reporting period;
- (d) It does not have the right at the end of the reporting period to defer settlement of the liability at least twelve months after the reporting period.

(5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

(6) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
- (a) The objective of the Company's business model is achieved by collecting contractual cash flows.
  - (b) The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.
- D. The Company's time deposits which do not fall under cash equivalents are those with a short maturity period and are measured at initial investment amount as the effect of discounting is immaterial.

(7) Account receivable

- A. Account receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term account receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(8) Impairment of financial assets

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost including accounts receivable or contract assets that have a significant financing component, lease receivables, loan commitments and financial guarantee contracts, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes

forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(9) Inventories

Inventories are stated at the lower of cost and net realisable value. Inventories are recorded at standard cost and variances are allocated to inventories and cost of goods sold at the balance sheet date. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and applicable variable selling expenses.

(10) Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	2 ~ 50 years
Machinery and equipment	1 ~ 10 year(s)
Mold equipment	1 ~ 3 year(s)
Transportation equipment	5 ~ 6 years
Furniture and fixtures and others	2 ~ 11 years

(12) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Company. For short-term leases or leases of low-value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are fixed payments, less any lease incentives receivable. The Company subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.
- C. At the commencement date, the right-of-use asset is stated at cost comprising the amount of the initial measurement of lease liability. The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.
- D. In determining the lease term, the Company takes into consideration all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. The assessment of lease period is reviewed if a significant event occurs which affects the assessment.

(13) Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognising impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(14) Accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services.
- B. The short-term accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(15) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(16) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

## B. Pensions

### (a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

### (b) Defined benefit plans

- i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date).
- ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.

## C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Company's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Company recognises expense as it can no longer withdraw an offer of termination benefits or it recognises relating restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

## D. Employees' compensation and directors' remuneration

Employees' compensation and directors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is paid by shares, the Company calculates the number of shares based on the closing price at the previous day of the board meeting resolution.

## (17) Employee share-based payment

Restricted stocks:

- A. Restricted stocks issued to employees are measured at the fair value of the equity instruments granted at the grant date, and are recognised as compensation cost over the vesting period.
- B. For restricted stocks where those stocks do not restrict distribution of dividends to employees and employees are not required to return the dividends received if they resign during the vesting period, the Company recognises the fair value of the dividends received by the employees who are expected to resign during the vesting period as compensation cost at the date of dividends declared.

(18) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

(19) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.

(20) Dividends

Cash dividends are recorded in the Company's financial statements in the period in which they are resolved by the Company's Board of Directors. Cash dividends are recorded as liabilities.

(21) Revenue recognition

A. Packaging and testing services

The Company provides semiconductor packaging and testing services. Revenue from providing services is recognised in the accounting period in which the services are rendered.

For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. This is determined based on the actual cost spent relative to the total expected cost. The customer pays at the time specified in the payment schedule.

B. Incremental costs of obtaining a contract

Given that the contractual period lasts less than one year, the Company recognises the incremental costs of obtaining a contract as an expense when incurred although the Company expects to recover those costs.

(22) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Group's chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

5. Critical Accounting Judgements, Estimates and Key Sources of Assumption Uncertainty

The preparation of these financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Critical judgements in applying the Company's accounting policies

None.

(2) Critical accounting estimates and assumptions

A. Impairment assessment of tangible assets

The Company assesses impairment based on its subjective judgement and determines the separate cash flows of a specific group of assets, useful lives of assets and the future possible income and expenses arising from the assets depending on how assets are utilised and industrial characteristics. Any changes of economic circumstances or estimates due to the change of Company strategy might cause material impairment on assets in the future.

B. Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

6. Details of Significant Accounts

(1) Cash and cash equivalents

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Cash on hand and petty cash	\$ 25	\$ 39
Checking accounts	-	2
Demand deposits	86,699	156,329
Time deposits	200,000	157,755
	<u>\$ 286,724</u>	<u>\$ 314,125</u>

- A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.
- B. As of December 31, 2025 and 2024, cash and cash equivalents both amounting to \$8,200 were pledged to others as collateral, and thus were classified as non-current financial assets at amortised cost. Details are provided in Note 8.
- C. As of December 31, 2024, the time deposits with original maturity of more than three months held by the Company were both \$159,400; the effective interest rate ranged between 1.635%~1.7%. The time deposits were not highly liquid investment and thus were reclassified to current financial assets at amortised cost. Information on interest income from the aforementioned time deposits recognised under interest income from bank deposits is provided in Note 6(13).

(2) Accounts receivable

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Accounts receivable	\$ 196,656	\$ 137,582
Less: Allowance for uncollectible accounts	( 743)	( 563)
	<u>\$ 195,913</u>	<u>\$ 137,019</u>

Less: Allowance for uncollectible accounts	( 118)	( 90)
	<u>\$ 46,806</u>	<u>\$ 32,814</u>

- A. The ageing analysis of accounts receivable that were past due but not impaired is as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
	<u>Accounts receivable</u>	<u>Accounts receivable</u>
Not past due	\$ 239,661	\$ 167,610
Up to 30 days	3,456	2,232
31 to 90 days	422	637
91 to 180 days	41	7
Over 180 days	-	-
	<u>\$ 243,580</u>	<u>\$ 170,486</u>

The above ageing analysis was based on past due date.

- B. As of December 31, 2025 and 2024, accounts receivable were all from contracts with customers. And as of January 1, 2024, the balance of receivables from contracts with customers amounted to \$186,824.
- C. The Company does not hold any collateral as security.
- D. As at December 31, 2025 and 2024, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the Company's accounts receivable (including related parties) were \$242,719 and \$169,833, respectively.
- E. Information relating to credit risk of accounts receivable is provided in Note 12(2).

(3) Inventories

	December 31, 2025		
	Cost	Allowance for valuation loss	Book value
Raw materials	<u>\$ 262,901</u>	<u>(\$ 80,060)</u>	<u>\$ 182,841</u>
	December 31, 2024		
	Cost	Allowance for valuation loss	Book value
Raw materials	<u>\$ 228,244</u>	<u>(\$ 75,056)</u>	<u>\$ 153,188</u>

A. The cost of inventories recognised as expense for the year:

	Year ended December 31	
	2025	2024
Cost of goods sold	\$ 1,224,577	\$ 1,060,071
Loss on decline in market value	5,004 (	771)
Revenue from sale of scraps	( 8,473)	( 8,523)
	<u>\$ 1,221,108</u>	<u>\$ 1,050,777</u>

For the year ended December 31, 2025, the Company reversed a previous inventory write-down and accounted for as reduction of cost of goods sold because the inventories which were previously provided with allowance for inventory valuation losses were subsequently scrapped or sold.

B. The Company has no inventories pledged to others.

C. To avoid overstocking due to the preparation of materials, the Company entered into contracts with certain customers to receive deposits of customer-specific materials. Based on mutual agreement, if the customer-specific materials purchased by the Company are used up within one year after arriving at the factory and there is no need for subsequent preparation of materials, the Company will refund the deposits; whereas if the customer-specific materials are not used up within one year after arriving at the factory, the customers shall unconditionally repurchase the remaining customer-specific materials. The repurchase amount is determined based on the inventory quantities. As of December 31, 2025 and 2024, the deposits received by the Company from the aforementioned transactions amounted to \$8,132 and \$3,570, respectively (shown under other current liabilities-other).

(5) Leasing arrangements-lessee

A. The Company leases various assets including land, buildings, business vehicles and other equipment. Rental contracts are made from 2008 to 2032. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.

B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
	<u>Carrying amount</u>	<u>Carrying amount</u>
Land	\$ 60,690	\$ 62,605

C. The information on profit and loss accounts relating to lease contracts is as follows:

	<u>Year ended December 31</u>	
<u>Items affecting profit or loss</u>	<u>2025</u>	<u>2024</u>
Interest expense on lease liabilities	\$ 808	\$ 826

E. For the years ended December 31, 2025 and 2024, the Company's total cash outflow for leases were \$2,815 and \$2,976, respectively.

F. As of December 31, 2025 and 2024, information on lease liabilities is as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Current lease liabilities	\$ 1,905	\$ 2,007

	<u>\$ 124,640</u>	<u>\$ 107,291</u>

Note: It included payables to related parties. Details are provided in Note 7, related party transactions.

(7) Pensions

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Act, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Labor Standards Act. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

(b) The amounts recognised in the balance sheet are as follows:

	<u>December 31, 2025</u>	<u>December 31, 2024</u>
Present value of defined benefit obligations	(\$ 31,119)	(\$ 30,427)
Fair value of plan assets	72,691	69,760

- (d) The Bank of Taiwan was commissioned to manage the Fund of the Company's defined benefit pension plan in accordance with the Fund's annual investment and utilisation plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilisation of the Labor Retirement Fund" (Article 6: The scope of utilisation for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitisation products, etc.). With regard to the utilisation of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorised by the Regulator. The Company has no right to participate in managing and operating that fund and hence the Company is unable to disclose the classification of plan assets fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2025 and 2024 is given in the Annual Labor Retirement Fund Utilisation Report announced by the government.
- (e) The principal actuarial assumptions used were as follows:

	Year ended December 31	
	2025	2024
Discount rate	1.25%	1.5%
Future salary increases	3.25%	3.25%

Assumptions regarding future mortality experience are set based on the 6th Taiwan Standard Ordinary Experience Mortality Table.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Future salary increases	
	Increase 0.5%	Decrease 0.5%	Increase 0.5%	Decrease 0.5%
December 31, 2025				
Effect on present value of defined benefit obligation	(\$ 833)	\$ 864	\$ 833	(\$ 807)
December 31, 2024				
Effect on present value of defined benefit obligation	(\$ 851)	\$ 884	\$ 854	(\$ 826)

The sensitivity analysis above is based on one assumption which changed while the other conditions remain unchanged. In practice, more than one assumption may change all at once. The method of analysing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(f) There are no expected contributions to the defined benefit pension plans of the Company for the year ending December 31, 2026.

(g) As of December 31, 2025, the weighted average duration of the retirement plan is 10.9 years. The analysis of timing of the future pension payment was as follows:

Within 1 year	\$	575
1-2 year(s)		1,657
2-5 years		2,596
Over 5 years		7,801
	<u>\$</u>	<u>12,629</u>

(h) The Company has applied for the postponement to contribute to defined benefit plans every year since December 2015 to comply with the Article 5 of ‘Regulations for the Allocation and Management of the Workers’ Retirement Reserve Fund’ as stated in the letter issued by the Export Processing Zone Administration of the Ministry of Economic Affairs.

B. (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on no less than 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.

(b) The pension costs under defined contribution pension plans of the Company for the years ended December 31, 2025 and 2024 were \$12,557 and \$12,236, respectively.

(8) Share-based payment

A. The Board of Directors during its meeting on March 1, 2022 and November 2, 2021 adopted a resolution to issue employee restricted ordinary shares, the Company’s share-based payment arrangements were as follows:

Type of arrangement (Note 1)	Grant date	Quantity granted	Contract period	Vesting conditions (Note 2)
Restricted stocks to employees	2021.11.2	3,000 thousand shares	3 years	Performance conditions achieved
Restricted stocks to employees	2022.3.1	500 thousand shares	3 years	Performance conditions achieved

Note 1: The restricted stocks issued by the Company cannot be transferred during the vesting period, but voting right and dividend right are not restricted on these stocks. Employees are required to return the stocks and the relevant dividends received if they resign during the vesting period.

Note 2: For the employees whose services with the Company have reached 1 year, 2 years and 3 years since the allocation of restricted stocks and who achieved the target performance and have made contributions, the ceiling of accumulated vested share ratio is 30%, 30% and 40%, respectively.

B. Details of the share-based payment arrangements are as follows: (Units: In thousand shares)

E. For the years ended December 31, 2025 and 2024, the compensation costs recognised for share-based payment transactions were \$54 and \$11,150, respectively.

(9) Share capital

A. As of December 31, 2025, the Company's authorised capital was \$6,000,000, consisting of 600,000 thousand shares of ordinary stock, and the paid-in capital was \$1,753,240 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. Movements in the number of the Company's ordinary shares outstanding are as follows:

	Units: In thousand shares	
	2025	2024
At January 1	175,324	175,340
Employee restricted shares	-	( 16)
At December 31	175,324	175,324

The Board of Directors during its meetings on May 3, 2022 and August 2, 2022 adopted a resolution to retire 150 thousand employee restricted ordinary shares with the effective dates set on May 13, 2022 and August 10, 2022, respectively. The shares had been registered on May 19, 2022 and August 15, 2022, respectively.

The Board of Directors during its meetings on March 1, 2023 and August 1, 2023 adopted a resolution to retire 110 thousand employee restricted ordinary shares with the effective dates set on March 10, 2023 and August 10, 2023, respectively. The shares had been registered on March 14, 2023 and August 14, 2023, respectively.

(10) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par

value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Act requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(11) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' accumulated losses and then 10% of the remaining amount shall be set aside as legal reserve. The remaining earnings, if any, along with accumulated unappropriated earnings, shall be proposed by the Board of Directors and be appropriated in accordance with the following regulations: In accordance with the Paragraph 5 of Article 240 of the Company Act, the Board of Directors is authorised by the Company to resolve the appropriation of dividends and bonuses or legal reserve and capital reserve, in whole or in part, in accordance with Paragraph 1 of Article 241 of the Company Act in the form of cash by the resolution adopted by the majority vote at its meeting attended by at least two-thirds of the total number of directors, and then reported it to the shareholders; if earnings are distributed by issuing new shares, the appropriation of earnings shall be proposed to the shareholders pursuant to the Article 240 of the Company Act.
- B. The Company's dividends are appropriated taking into account the business environment and growing stage of the Company, in response to future capital requirements and long-term financial plan, and to meet shareholders' satisfaction as to cash inflow. Dividends are distributed as stock dividends and cash dividends, and the cash dividend shall not be less than 50% of the total amount of dividends.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose.

The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.

- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- E. For the proposal for deficit compensation for the years ended December 31, 2025 and 2024, dividends will not be distributed to stockholders as some accumulated deficits remain uncovered.

##### (a) Market risk

##### Foreign exchange risk

- i. The Company operates internationally and is exposed to foreign exchange risk arising from the transactions of the Company used in various functional currency, primarily with respect to the USD. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities.
- ii. The Company's businesses involve some non-functional currency operations (the Company's functional currency: NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

December 31, 2025				
	Foreign currency amount (in thousands)		Exchange rate	Book value (NTD in thousands)
<u>Financial assets</u>				
<u>Monetary items</u>				
USD	\$ 4,810		31.43	\$ 151,200
JPY	1,647		0.20	331
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD	\$ 1,767		31.43	\$ 55,536
JPY	18,563		0.20	3,737
December 31, 2024				
	Foreign currency amount (in thousands)		Exchange rate	Book value (NTD in thousands)
<u>Financial assets</u>				
<u>Monetary items</u>				
USD	\$ 5,720		32.79	\$ 187,544
JPY	32,281		0.21	6,792
<u>Financial liabilities</u>				
<u>Monetary items</u>				
USD	\$ 981		32.79	\$ 30,092

- iii. The total exchange (loss) gain, including realised and unrealised, arising from significant foreign exchange variation on the monetary items held by the Company for the years ended December 31, 2025 and 2024 amounted to (\$6,134) and \$29,918, respectively.
- iv. Sensitivity analysis of foreign exchange risk is primarily for foreign currency monetary items at financial reporting date. If NTD had appreciated or depreciated by 1% to USD, net income would have increased/decreased by \$956 and \$1,574 for the years ended December 31, 2025 and 2024, respectively.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms, and the contract cash flows of debt instruments stated at amortised cost.
- ii. According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Credit risk arises from cash and cash equivalents, including outstanding

receivables and committed transactions. For banks and financial institutions, the Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk.

- iii. The Company adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:  
If the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
- iv. The Company adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
- v. The Company classifies customer's accounts receivable and contract assets in accordance with credit rating of customer. The Company applies the modified approach using the loss rate methodology to estimate the expected credit loss.
- vi. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
  - (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganisation due to their financial difficulties;
  - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
  - (iii) Default or delinquency in interest or principal repayments;
  - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vii. The Company used the forecastability to adjust historical and timely information to assess the default possibility of accounts receivable and contract assets. On December 31, 2025 and 2024, the loss rate methodology is as follows:

	<u>Group A</u>	<u>Group B</u>	<u>Total</u>
<u>At December 31, 2025</u>			
Expected loss rate	0.378%	0.251%	
Total book value	\$ 196,656	\$ 46,924	\$ 243,580
Loss allowance	\$ 743	\$ 118	\$ 861
	<u>Group A</u>	<u>Group B</u>	<u>Total</u>
<u>At December 31, 2024</u>			
Expected loss rate	0.409%	0.274%	
Total book value	\$ 137,582	\$ 32,904	\$ 170,486
Loss allowance	\$ 563	\$ 90	\$ 653

viii. Movements in relation to the Company applying the modified approach to provide loss allowance for accounts receivable and contract assets are as follows:

	2025	
	<u>Accounts receivable</u>	<u>Contract assets</u>
At January 1	\$ 653	\$ -
Provision for impairment	<u>208</u>	<u>-</u>
At December 31	<u>\$ 861</u>	<u>\$ -</u>
	2024	
	<u>Accounts receivable</u>	<u>Contract assets</u>
At January 1	\$ 1,347	\$ -
Provision for impairment	<u>(694)</u>	<u>-</u>
At December 31	<u>\$ 653</u>	<u>\$ -</u>

For provisioned loss in 2025 and 2024, the impairment (losses) gains arising from customers' contracts are (\$208) and \$694, respectively.

(c) Liquidity risk

- i. Cash flow forecasting is performed by Company treasury. Company treasury monitors rolling forecasts of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. Company treasury invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts. As at December 31, 2025 and 2024, the Company held money market position of \$286,699 and \$473,484, respectively, that are expected to readily generate cash inflows for managing liquidity risk.
- iii. The table below analyses the Company's non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

	December 31, 2025		
	<u>Within 1 year</u>	<u>Between 1 and 2 years</u>	<u>Over 2 years</u>
<u>Non-derivative financial liabilities:</u>			
Accounts payable	\$ 128,067	\$ -	\$ -
Other payables	124,640	-	-
Lease liability	2,686	2,428	73,332

	December 31, 2024		
	<u>Within 1 year</u>	<u>Between 1 and 2 years</u>	<u>Over 2 years</u>
<u>Non-derivative financial liabilities:</u>			
Accounts payable	\$ 79,003	\$ -	\$ -
Other payables	107,291	-	-
Lease liability	2,815	2,686	75,760

(3) Fair value information

The Company has no financial instruments measured at fair value. The carrying amounts of financial instruments not measured at fair value including cash and cash equivalents, financial assets at amortised cost, accounts receivable, other receivables, accounts payable, other payables and lease liabilities are approximate to their fair values.

13. Supplementary Disclosures

14. Segment Information

(1) General information

The Company operates business only in a single industry. The Board of Directors, who allocates resources and assesses performance of the Company as a whole, has identified that the Company has only one reportable operating segment.

(2) Segment information

The segment information provided to the chief operating decision-maker for the reportable segments is as follows:

	Year ended December 31	
	2025	2024
	Semiconductor	Semiconductor
	<u>packaging and testing</u>	<u>packaging and testing</u>
Revenue from external customers	\$ 1,099,072	\$ 904,163
